Cephalalgia 1994;14. Oslo. ISSN 0333-1024

Author index

Alecci M
Decreased collagen-induced platelet aggregation and increased platelet arginine levels in migraine: a possible link with the NO pathway, 352
Ali S
The International Headache Society (IHS) Headache Classification as applied to a headache clinic population, 443
Altura BT
Chronic daily headache—one disease or two? Diagnostic role of serum ionized magnesium, 24
Altura BM
Chronic daily headache—one disease or two? Diagnostic role of serum ionized magnesium, 24
Anderson BA
Oral sumatriptan: effect of a second dose, and incidence and treatment of headache recurrences, 330
Andrasik F
Psychopathology in individuals with post-traumatic headaches and other pain types, 118
Personality characteristics before and after treatment, 319
Annell K
MRI in retropharyngeal tendinitis, 266
Anselmi B
Increased adverse effects of opiates in migraine patients, 466
Anthony M
Platelet superoxide dismutase in migraine and tension-type headache, 181
Antonaci F
Comparative study with EMG, pressure algometry and manual palpation in tension-type headache and migraine, 451
Appenzeller O
High-altitude headache, 317
Arboix A
Headache in acute cerebrovascular disease: a prospective clinical study in 240 patients, 37
Argentino C
Ergotamine-induced headache can be sustained by sumatriptan daily intake, 374
Arregui A
Migraine, polycythemia and chronic mountain sickness, 339
Arribas MP
Headache in acute cerebrovascular disease: a prospective clinical study in 240 patients, 37
Asenbaum S
Dopamine D2 receptor blockade and antimigraine action of flunarizine, 235
Ashford E
Oral sumatriptan: effect of a second dose, and incidence and treatment of headache recurrences, 330
Asin FM
Vascular malformation of the cerebellopontine angle associated with "SUNCT" syndrome, 301
Atkinson L
Cervical musculoskeletal dysfunction in post-concussional headache, 273
Attal N
"SUNCT" syndrome. A case of transformation from trigeminal neuralgia? 168
Aubineau P
Spontaneous and 5HT-induced cyclic contractions in superficial temporal arteries from chronic and episodic cluster headache patients, 419
Aull S
Use and abuse of analgesics in tension-type headache, 162
Bach-y-Rita P
Non-synaptic diffusion neurotransmission: a novel concept for future migraine research, 396
Balottin U
Benign paroxysmal vertigo of childhood: a long-term follow-up, 458
Barbiroli B
Magnetic resonance spectroscopy studies in migraine, 184
Barontini M
Peripheral opioid systems in cluster headache, 248
Bastings E
High-dose riboflavin as a prophylactic treatment of migraine: results of an open pilot study, 328
Bates D
Oral sumatriptan: effect of a second dose, and incidence and treatment of headache recurrences, 330
Bellmeyer LR
The International Headache Society (IHS) Headache Classification as applied to a headache clinic population, 443
Belloni G
Carotid pain during percutaneous angioplasty (PTA). Pathophysiology and clinical features, 127
Berciano J
Isolated headache as the presenting clinical manifestation of intracranial tumors: a prospective study, 270
Beydoun A
Quantitative EEG analysis, 3
Bibbiani F
White matter MRI hyperintensities in a hundred and twenty-nine consecutive migraine patients, 242
Biffi M
Leukocyte subsets and cortisol serum levels in patients wth migraine without aura and chronic tension-type headache, 139
Biousse V
Head pain in non-traumatic carotid artery dissection: a series of 65 patients, 33
Bogduk N
Cervical musculoskeletal dysfunction in post-concussional headache, 257
Bono G
Comparative study with EMG, pressure algometry and manual palpation in tension-type headache and migraine, 451
Bonuccelli U
Platelet ^{3}H-imipramine binding and sulphotransferase activity in primary headache, 210

White matter MRI hyperintensities in a hundred and twenty-nine consecutive migraine patients, 342
Bonuso S
"Hemicrania continua": a possible case with alternating sides, 307
Bosone D
Bilateral asymmetry of cerebral blood velocity in cluster headache, 346
Bouhassira D
"SUNCT" syndrome. A case of transformation from trigeminal neuralgia? 168
Boulan P
Spontaneous and 5HT-induced cyclic contractions in superficial temporal arteries from chronic and episodic cluster headache patients, 419
Boureau F
Double-blind comparison of an acetaminophen 400 mg–codeine 25 mg combination versus aspirin 1000 mg and placebo in acute migraine attack, 156
Bousser M-G
Head pain in non-traumatic carotid artery dissection: a series of 65 patients, 33
Combined oral lysine acetylsalicylate and metoclopramide in the acute treatment of migraine: a multicentre double-blind placebo-controlled study, 297
Brochet B
Spontaneous and 5HT-induced cyclic contractions in superficial temporal arteries from chronic and episodic cluster headache patients, 419
Brody ML
A differential response to treatment with divalproex sodium in patients with intractable headache, 241
Brücke T
Dopamine D2 receptor blockade and antimigraine action of flunarizine, 235
Bulcke J
Self-treatment of acute migraine with subcutaneous sumatriptan using an auto-injector device: comparison with customary treatment in an open, longitudinal study, 55
Bundrick CM
Psychopathology in individuals with post-traumatic headaches and other pain types, 118
Bussone G
Leukocyte subsets and cortisol serum levels in patients with migraine without aura and chronic tension-type headache, 139
Assessment of International Headache Society diagnostic criteria: a reliability study, 280
The insulin tolerance test and ovine corticotrophin-releasing-hormone test in episodic cluster headache II: comparison with low back pain patients, 357
Internal ophthalmoplegia associated with migraine attacks, 461
Buzzi MG
Cortical spreading depression and dural blood flow, 393
Caballero F
Short prophylaxis of migraine, 306
Cabrera J
Migraine, polycythemia and chronic mountain sickness, 339
Caekebeke J
Self-treatment of acute migraine with subcutaneous sumatriptan using an auto-injector device: comparison with customary treatment in an open, longitudinal study, 55
Calder J
Benign paroxysmal vertigo of childhood: a long-term follow-up, 395
Cananzi AR
Decreased collagen-induced platelet aggregation and increased platelet arginine levels in migraine: a possible link with the NO pathway, 352
Canapicchi R
White matter MRI hyperintensities in a hundred and twenty-nine consecutive migraine patients, 342
Canitano R
Diagnostic criteria of childhood migraine, 258, 381
Cardell LO
Endothelins: a role in cerebrovascular disease? 259
Cassano GB
Platelet 3H-imipramine binding and sulphotransferase activity in primary headache, 210
Catarci T
Ergotamine-induced headache can be sustained by sumatriptan daily intake, 374
If migraine prophylaxis does not work, think about compliance, 463
Cavallini A
Bilateral asymmetry of cerebral blood velocity in cluster headache, 346
Cerbo R
International Headache Society classification: interobserver reliability in the diagnosis of primary headache, 16
Ergotamine-induced headache can be sustained by sumatriptan daily intake, 374
Chabriat H
Combined oral lysine acetylsalicylate and metoclopramide in the acute treatment of migraine: a multicentre double-blind placebo-controlled study, 297
Chauvin M
"SUNCT" syndrome. A case of transformation from trigeminal neuralgia? 168
Chronicle E
Might migraine damage the brain? 415
Cleal A
A randomized double-blind placebo-controlled crossover study of subcutaneous sumatriptan in general practice, 291
Collavoli P
White matter MRI hyperintensities in a hundred and twenty-nine consecutive migraine patients, 342
Cortelli P
Abnormal platelet mitochondrial function in patients affected by migraine with and without aura, 21
Magnetic resonance spectroscopy studies in migraine, 184
Costelli P
Urinary melatonin excretion throughout the ovarian cycle in menstrually related migraine, 205
Couturier EGM
If migraine prophylaxis does not work, think about compliance, 463

Increased parasellar activity on Gallium SPECT is not specific for active cluster headache, 132
cortisol
Leukocyte subsets and cortisol serum levels in patients with migraine without aura and chronic tension-type headache, 139
divalproex sodium
A differential response to treatment with divalproex sodium in patients with intractable headache, 241
dopamine D_2 receptor
Dopamine D_2 receptor blockade and antimigraine action of flunarizine, 235
Doppler
CO_2 measurements during transcranial Doppler examinations in headache patients: methodological considerations, 245
drug abuse
Opiate and opioid use in patients with refractory headache, 5
Octreotide dependency and headache: a case report, 303
Use and abuse of analgesics in tension-type headache, 162
EEG
EEG features in juvenile migraine: topographic analysis of spontaneous and visual evoked brain electrical activity: A comparison with adult migraine, 41
EMG
Comparative study with EMG, pressure algometry and manual palpitation in tension-type headache and migraine, 451
endothelins
Endothelins: a role in cerebrovascular disease? 259
epidemiology
The epidemiology of headache in Germany: a nationwide survey of a representative sample on the basis of the headache classification of the International Headache Society, 97
ergotamine
Ergotamine-induced headache can be sustained by sumatriptan daily intake, 374
exteroceptive suppression
Exteroceptive suppression of temporalis muscle activity during migraine attack and migraine interval before and after treatment with sumatriptan, 143
headache—clinical
Intractable headache: aseptic meningitis and sphenoidal sinusitis, 368
Personality characteristics before and after treatment of different head pain syndromes, 368
Isolated headache as the presenting clinical manifestation of intracranial tumors: a prospective study, 270
headache—pathogenesis
CO_2 measurements during transcranial Doppler examinations in headache patients: methodological considerations, 245
headache—treatment
A differential response to treatment with divalproex sodium in patients with intractable headache, 241
hemicrania continua
"Hemicrania continua": a possible case with alternating sides (letter-to-the-editor), 307
hyperintensities
White matter MRI hyperintensities in 129 consecutive migraine patients, 342
intracranial tumors
Isolated headache as the presenting clinical manifestation of intracranial tumors: a prospective study, 270
L-arginine
Decreased collagen-induced platelet aggregation in migraine: possible relationship with increased intraplatelet L-arginine levels in migraine: a possible link with the NO pathway, 352
leukocytes
Leukocyte subsets and cortisol serum levels in patients with migraine without aura and chronic tension-type headache, 139
lumbar puncture
Migrainous phenomenon precipitated by lumbar puncture headache, 379
magnesium
Chronic daily headache—one disease or two? Diagnostic role of serum ionized magnesium, 24
Intracellular and plasma magnesium in familial hemiplegic migraine and migraine with and without aura, 29
magnetic resonance imaging
Magnetic resonance imaging in retropharyngeal tendinitis, 266
magnetic resonance spectroscopy
Magnetic resonance spectroscopy studies in migraine, 184
melatonin
Lowered circannual urinary melatonin concentrations in episodic cluster headache, 199
Urinary melatonin excretion throughout the ovarian cycle in menstrually related migraine, 205
menstrual migraine
Urinary melatonin excretion throughout the ovarian cycle in menstrually related migraine, 205
The premenstrual syndrome belongs in the diagnostic criteria for menstrual migraine, 413

Menstrual migraine is not pathogenetically related to premenstrual syndrome, 411
metoclopramide
Combined oral lysine acetylsalicylate and metoclopramide in the acute treatment of migraine: a multicentre double-blind placebo-controlled study, 297
migraine
Abnormal platelet mitochondrial function in patients affected by migraine with and without aura, 21
Intracellular and plasma magnesium in familial hemiplegic migraine and migraine with and without aura, 29
The valproate mechanisms of action in migraine, 465
migraine—classical
White matter MRI hyperintensities in 129 consecutive migraine patients, 342
migraine—clinical
Handedness and headache, 64
Improved description of the migraine aura by a diagnostic aura diary, 107
Characteristics of headache in migraine without aura and episodic tension-type headache in the Turkish population according to the IHS classification, 171
Migraine, polycythemia and chronic mountain sickness, 339
Migrainous phenomenon precipitated by lumbar puncture headache, 379
Comparative study with EMG, pressure algometry and manual palpitation in tension-type headache and migraine, 451
Internal ophthalmoplegia associated with migraine attacks, 461
Short prophylaxis of migraine (letter-to-the-editor), 306
migraine pathogenesis
Absence of vasoactive peptide release from brain to cerebral circulation during onset of migraine with aura, 47
Leukocyte subsets and cortisol serum levels in patients with migraine without aura and chronic tension-type headache, 139
Exteroceptive suppression of temporalis muscle activity during migraine attack and migraine interval before and after treatment with sumatriptan, 143
Platelet superoxide increase during episodes of tension-type headache, 219
Endothelins: a role in cerebrovascular disease? 259
Immunocyte enumeration in duodenal biopsy of migraine without aura patients with or without food-induced migraine, 365
The blink reflex in chronic tension-type headache, migraine, and cervicogenic headache, 447
The mode of action of sumatriptan is vascular? A debate, 401
Neuropeptides in migraine and cluster headache, 320
Cortical spreading depression reduces dural blood flow—a possible mechanism for migraine pain? 430
Nitroglycerin-induced headache is not dependent on histamine release, support for a direct nociceptive action of nitric oxide, 437
migraine—pediatric
EEG features in juvenile migraine: topographic analysis of spontaneous and visual evoked brain electrical activity: A comparison with adult migraine, 41
Migraine in children—an evaluation of the IHS criteria, 285

migraine therapy
Acute myocardial infarction in a young female migraineur: sumatriptan suspected, but found not guilty (letter-to-the-editor), 305
Sodium valproate for acute migraine attacks (letter-to-the-editor), 305
migraine—treatment
Double-blind comparison of an acetaminophen 400 mg–codeine 25 mg combination versus aspirin 1000 mg and placebo in acute migraine attack, 156
A randomized double-blind placebo-controlled crossover study of subcutaneous sumatriptan in general practice, 291
Combined oral lysine acetylsalicylate and metoclopramide in the acute treatment of migraine: a multicentre double-blind placebo-controlled study, 297
High-dose riboflavin as a prophylactic treatment of migraine: results of an open pilot study, 328
If migraine prophylaxis does not work, think about compliance, 463
Oral sumatriptan: effect of a second dose, and incidence and treatment of headache recurrences, 330
migraine without aura
Immunocyte enumeration in duodenal biopsy of migraine without aura patients with or without food-induced migraine, 35
mitochondria
Abnormal platelet mitochondrial function in patients affected by migraine with and without aura, 21
mountain sickness
Migraine, polycythemia and chronic mountain sickness, 339
MRI
White matter MRI hyperintensities in 129 consecutive migraine patients, 342
neurotransmission
Non-synaptic diffusion neurotransmission: a novel concept for future migraine research, 396
nitric oxide
Nitroglycerin-induced headache is not dependent on histamine release, support for a direct nociceptive action of nitric oxide, 437
nitroglycerin-induced headache
Nitroglycerin-induced headache is not dependent on histamine release, support for a direct nociceptive action of nitric oxide, 437
nociception
Nitroglycerin-induced headache is not dependent on histamine release, support for a direct nociceptive action of nitric oxide, 437
Effect of peppermint and eucalyptus oil preparations on neurophysiological and experimental algesimetric headache parameters, 228

nonsynaptic diffusion
Non-synaptic diffusion neurotransmission: a novel concept for future migraine research, 396
opioids
Opiate and opioid use in patients with refractory headache, 5
Peripheral opioid systems in cluster headache (letter-to-the-editor), 248
Increased adverse effects of opiates in migraine patients (letter-to-the-editor), 466
pathogenesis
Abnormal platelet mitochondrial function in patients affected by migraine with and without aura, 21
The insulin tolerance test and ovine corticotrophin-releasing hormone test in episodic cluster headache II: Comparison with low back patients, 357
Intracellular and plasma magnesium in familial hemiplegic migraine and migraine with and without aura, 29
Might migraine damage the brain? 415
pediatric
Benign paroxysmal vertigo of childhood: a long-term follow-up, 458
peptides
Neuropeptides in migraine and cluster headache, 320
Absence of vasoactive peptide release from brain to cerebral circulation during onset of migraine with aura, 47
Demonstration of neuropeptide containing nerves and vasomotor responses to perivascular peptides in human cerebral arteries, 88
personality
Personality characteristics before and after treatment of different head pain syndromes, 368
platelet
Decreased collagen-induced platelet aggregation in migraine: possible relationship with increased intraplatelet L-arginine levels in migraine: a possible link with the NO pathway, 352
Function of the peripheral serotoninergic pathways in migraine: a proposal for an experimental model, 11
Abnormal platelet mitochondrial function in patients affected by migraine with and without aura, 21
Platelet 3H-imipramine binding and sulphotransferase activity in primary headache, 210
Platelet superoxide dismutase in migraine and tension-type headache, 215
post-concussional headache
Cervical musculoskeletal dysfunction in post-concussional headache, 273
post-traumatic headache
Psychopathology in individuals with post-traumatic headaches and other pain types, 118
premenstrual syndrome
The premenstrual syndrome belongs in the diagnostic criteria for menstrual migraine, 413
Menstrual migraine is not pathogenetically related to premenstrual syndrome, 411
psychophysiological stress
A critical note on psychophysiological stress research into migraine patients, 194
retropharyngeal tendinitis
Magnetic resonance imaging in retropharyngeal tendinitis, 266
riboflavin
High-dose riboflavin as a prophylactic treatment of migraine: results of an open pilot study, 328
serotonin
Spontaneous and 5HT induced cyclic contractions in superficial temporal arteries from chronic and episodic cluster headache patients, 419
Function of the peripheral serotoninergic pathways in migraine: a proposal for an experimental model, 11
Plasma serotonin increase during episodes of tension-type headache, 219
sodium valproate
Sodium valproate for acute migraine attacks (letter-to-the-editor), 305
sphenoidal sinusitis
Intractable headache: aseptic meningitis and sphenoidal sinusitis, 376
spreading depression
Cortical spreading depression reduces dural blood flow—a possible mechanism for migraine pain? 430
sulphotransferase
Platelet 3H-imipramine binding and sulphotransferase activity in primary headache, 210
sumatriptan
The mode of action of sumatriptan is vascular? A debate, 401
A randomized double-blind placebo-controlled crossover study of subcutaneous sumatriptan in general practice, 291
Ergotamine-induced headache can be sustained by sumatriptan daily intake, 374
Oral sumatripan: effect of a second dose, an incidence and treatment of headache recurrences, 330
Self-treatment of acute migraine with subcutaneous sumatriptan using an auto-injector device: comparison with customary treatment in an open, longitudinal study, 55
Exteroceptive suppression of temporalis muscle activity during migraine attack and migraine interval before and after treatment with sumatriptan, 143
Acute myocardial infarction in a young female migraineur: sumatriptan suspected, but found not guilty (letter-to-the-editor), 305
SUNCT
Vascular malformation of the cerebellopontine angle associated with "SUNCT" syndrome, 301
"SUNCT" syndrome. A case of transformation from trigeminal neuralgia? 168
superoxide dismutase
Platelet superoxide dismutase in migraine and tension-type headache, 215
temporomandibular joint
TMJ controversies (letter-to-the-editor), 248
tension-type headache
Leukocyte subsets and cortisol serum levels in patients with migraine without aura and chronic tension-type headache, 139
tension-type headache—clinical
Comparative study with EMG, pressure algometry and manual palpitation in tension-type headache and migraine, 451

Characteristics of headache in migraine without aura and episodic tension-type headache in the Turkish population according to the IHS classification, 171
TMJ controversies (letter-to-the-editor), 248
tension-type headache—pathogenesis
